

Software as a Product

SaaP

SaaP

- Application / Tool to solve a problem
- Usually one off purchase via a license (high price)
- Major updates = another purchase
- Traditional approach

SaaS

- Web App / Tool to solve a problem
- Subscription model (lower price) - pay as you go
- Dominate approach - 86% companies running SaaS

SaaS vs SaaP (Traditional Software)

- SaaS offers free trial
- Recurring payment
- No install needed
- Automatic updates
- Multiple users
- Manages security / data backups
- Distributed via cloud
 - Laptop, tablet, mobile
